SCIENCE!

the musical

YES, THIS IS A REAL MUSICAL! COME AND SEE IT!

"Science! The Musical" is a new musical about life in the lab written by PSSN scholar **Andrew Goldman** and directed by **Jenna Hoffman**. Follow the story of Janice, a first year PhD student, who has just had her first paper accepted to an academic conference. The only problem is, she hasn't written the paper yet! In the few short weeks before the conference, Janice must learn to do interdisciplinary science. Will she **publish**, or will she **perish**!?
